

Corpus Bibliographique Complet

État de l'art du projet JGRAPA

Charles Baudoux

Université Paris-Dauphine PSL – L3 MIAGE

Juillet 2026

Présentation du corpus

Ce document rassemble l'intégralité des références bibliographiques validées pour le projet JGRAPA. Ces articles couvrent l'architecture logicielle, la modélisation en graphe, l'expérience étudiante et les méthodes d'agrégation multicritères. La gestion de ces méta-données a été automatisée via Zotero.
